RE: Public Service Commission of Kentucky Case No. 97-360

Dear Sirs:

This is to state my strong objection to construction of a facility to provide a cellular radio telecommunication tower (190-193 feet high) on a lot at 2275 North Broadway, Lexington, Fayette County, Kentucky. These are my concerns/suggestions:

- 1) Tom Powell's letter (SBA Towers Kentucky, Inc.) dated August 29, 1997, stated a map providing location of the new facility was enclosed -- it was not. Omission of the map has created confusion regarding the exact location of the facility.
- 2) The lot specified is contiguous to the homes on Circle Drive in the Joyland Neighborhood. I am concerned about the safety and physical security of the facility, as well as:
 - Children would be attracted to it.
 - A tower 193 feet high is not aesthetically compatible with the neighborhood.
 - Does the facility require high voltage?
 - Would it cause interference with regular telephone services, cordless phones, television (cable and satellite), ham radio operation?
- 3) More information is needed from SBA Towers as to the type of equipment used, power sources, potential hazards, the kind of barriers between the facility and neighbors (fencing, hedges, trees, etc.)
- 4) Perhaps, when all information is available, alternate sites can be suggested.

Sincerely,

Diane B. Prewitt
